SUMMARY

I am an analytical engineer student in the final year of a M.Sc in Interaction Technology and Design at Umeå University, aspiring to pursue a career in management consulting. I have gained experience in analyzing data work flows, breaking down complex problems and turning insights into practical solutions. To specify, by combining my technical expertise in software development, databases and digitalization with a strong understanding of user needs, I bring both the analytical and human-centered perspectives to problem-solving.

PROJECT EXPERIENCE

User Testing & Process Analysis, Hero Imaging **Jan 2024 - June 2024**

- Analysed data workflows to identify improvement opportunities in a medical imaging software solution.
- Gathered information through interviews and surveys
- Developed and tested prototypes (Figma) with user end, iterating from analysis to final produkt.

Software Development, Euro Padel League **Jun 2025 - Sept 2025**

- Took a mobile application from concept and design to implementation (React Native, Expo, TypeScript) in close dialouge with the client.

Full-Stack Development, Recipe Maker **Mars 2025 - Jun 2025**

- Designed data models and a relational database, and built a REST API and React Frontend (C#, ASP.NET Core, Entity Framework Core, SQL, TypeScript)
- Website for recipe management, ingredient handling and meal planning.

EDUCATION

M.Sc in Interaction Technology & Design **Aug 2022 - Jun 2027**

Umeå University

- B.Sc in Data Science
- B.Sc in Media Technology

Business Management **Jan 2021 - Jun 2021**

University of Northwestern Ohio

- Collegiate athletics in soccer

KEY SKILLS

- Project leadership
- Process analysis
- Problem structuring
- User research
- Prototyping
- Testing & validation
- SQL, C#, .NET, Java
- JavaScript, TypeScript
- React
- HTML & CSS
- Figma

VOLUNTEERING EXPERIENCE

Web Editor – DataTjej **2026 – Present**

- Managing and developing web content for DataTjej, with a focus on communication, design and user experience.

Event Coordinator – DataTjej **2024 – 2025**

- Planned events for the non-profit organization DataTjej.
